

# 生物科技學士學位學程

## 畢業感言

As I graduate, I want to express my utmost gratitude to all the teachers who have guided me throughout this journey. Your dedication and wisdom have shaped not just my education, but my character. Furthermore, I would love to thank NCHU for providing a nurturing environment where I could grow and learn. From the challenging research projects to the enriching friendships I've gained, every aspect of my time here has contributed to my growth. My university journey may be coming to an end, but the lessons learned will continue to influence my path forward.
